Testimonials from the students of 2016-18 batch

Visakh Ram Mohan - There are some choices in life that leave you feeling happy for yourself for having made them. It is a matter of pride to have made a decision to join Bhavan's B-School. It had the very apt pedagogy, resources and ambience that helped me realize my innate potential in doing what I wanted to. The pool of features, offered by Bhavan's B-School, has enabled me to channel my abilities and in the process offered me a professional career that was always desired. It is not always the lakshya that alone counts. For at times, your marga determines what you are when you reach the lakshya.

Vineetha V. Nair - I consider my 2 years tenure at Bhavan's Royal Institute of Management as a great

experience. Bhavan's provides a great platform for skill enhancement and to get a great learning experience. The members of faculty as well as of the placement committee were extremely supportive in developing us to meet the industry expectations as well as ensuring maximum number of placement opportunities to all of us. I wish to express my sincere gratitude to the Dean and staff of the institution for their relentless support.

Aparna Lakshmanan - I am very glad to share about the positive journey I had at Bhavan's Royal Institute of Management. All the faculty members are enthusiastic and always ready to help. Sidarth S Kumar - I consider the time spent at Bhavan's Royal Institute of Management as a great phase of my life. The institute has a good group of faculty members, who are extremely cooperative, and the campus environment is very positive. Training and Placements

cell is very active and persisted to provide the right opportunity for the students. The days spend at Bhavan's has a special place in my life and will be remembered forever. It's a place which brings the best out of each student. I will miss the campus.

Thank you Bhavan's for making me who I'm today.
