Theme of FDP

Introduction of GST was a revolutionary decision taken by the Govt. which has greater impact and implication on academicians. The transactions related to GST are to be recorded in the journal and ledger so that it is reflected in the Balance Sheet of a business enterprise. The subject of accountancy is going to be more vibrant due to the recording of GST transactions. It is more complicated since the tax is to be divided between State and Central Govt. The 'Input Tax Credit' and the set-off provisions are to be learned in detail. This FDP is a platform for the academicians and researchers to understand the intricacies of GST mechanism.
